

Rising demand for emergency backup power and support to data centers for AI

Posted by u/indiscernable1 • 0 points • 1 comments

A local company near me is hiring 250 people to fulfill the demand for emergency electric backup systems. The increase in "exponentially demand" is directly tied to the increasing demand of AI electricity consumption. Where is the energy coming from?

Welcome to the r/ArtificialIntelligence gateway

News Posting Guidelines

Please use the following guidelines in current and future posts:

- * Post must be greater than 100 characters - the more detail, the better.
- * Use a direct link to the news article, blog, etc
- * Provide details regarding your connection with the blog / news source
- * Include a description about what the news/article is about. It will drive more people to your blog
- * Note that AI generated news content is all over the place. If you want to stand out, you need to engage the audience

Thanks - please let mods know if you have any questions / comments / etc
