

r/CharacterAI

Does anyone know if c.ai uses green energy?

Posted by u/OCD_incarnate • • 0 points • 1 comments

I've searched everywhere and can't find anything. I saw a meme claiming each generated response is "the equivalent of dumping out a 16oz water bottle" and I want to know how true that is. The company doesn't have any metrics about carbon emissions anywhere, not even other speculative sources that i can find.
