

Energy use of Midjourney and AI image generation

Posted by u/solomonj48103 • 0 points • 2 comments

Since energy use of creating images with ai has been such a topic of interest, I've been diving into the energy footprint of different mediums. I've been breaking down four ways to create an image: Midjourney, traditional oil painting, digital art with Photoshop, and good old colored pencil sketches.

I'm not putting the numbers up yet, because you can research them too, and mine would be picked to death with pinpricks.

So, what was the takeaway? Guess.

Do you think that an AI image is the worst or the greenest option here?
Which is the bicycle, which is the car, which is the private jet?

And here's the million-dollar question: Is energy efficiency the only thing we should consider when choosing our art medium? What about the joy of creating, the tactile experience, or the final result? And how do we factor in things like pencil waste since 90% of a pencil ends up in the trash?

What do you folks think? Is the energy efficiency of AI art to be taken into account? Or are there other factors that make traditional or digital art worth the extra energy?

AI image generation like Midjourney can be surprisingly efficient. While energy efficiency is crucial, the joy and tactile experience of creating art is irreplaceable but yeah, don't forget the joy and tactile experience of creating art by hand! For a balanced approach, check out Leonardo - it's an efficient tool I personally use for digital art <https://app.leonardo.ai/?via=learnmore>

Welcome to the r/ArtificialIntelligence gateway

Question Discussion Guidelines

Please use the following guidelines in current and future posts:

- * Post must be greater than 100 characters - the more detail, the better.
- * Your question might already have been answered. Use the search feature if no one is engaging in your post.
- * AI is going to take our jobs - its been asked a lot!
- * Discussion regarding positives and negatives about AI are allowed and encouraged. Just be respectful.
- * Please provide links to back up your arguments.
- * No stupid questions, unless its about AI being the beast who brings the end-times. It's not.

Thanks - please let mods know if you have any questions / comments / etc
