

I wrote up a detailed summary of every major environmental criticism of ChatGPT and why they're incorrect

Posted by u/MrMasley • 0 points • 1 comments

[Post here](https://andymasley.substack.com/p/a-cheat-sheet-for-conversations-about).

As an environmentalist, I think a lot of environmental criticisms of ChatGPT are really misunderstanding the magnitudes of energy and water involved. All the major points people regularly bring up "It uses 10x as much as a Google search" or "50 prompts use a bottle of water" are correct, but deeply misleading without broader context.
