

I asked ChatGPT about it's carbon footprint, presented in the style of a 90's Archie comic

Posted by u/audyaudvi • 0 points • 2 comments

and yes, I know it's hypocritical of me to ask this prompt as it wastes emissions. Cancel my jet, double my oat milk 😎

Lol this is hilarious but pretty good! Would you be interested in sharing it on [www.storinex.com] (<http://www.storinex.com/>) so that other ai comic creators can also check this out?

It's a webcomic platform made just for AI comic creators and many redditors have joined. Would love to see your work there, and you can see what other people are making too!

Nice! If you're taking requests:

Veronica tries—very unconvincingly—to casually explain her recent weight loss as the result of switching to soy and walking to the office, rather than freebasing Ozempic.
