Ai Is bad for the environment

Posted by u/WallabyLegitimate125 • • 0 points • 51 comments

I've heard this take a lot and it's a good one but theres a problem. Yes ai is bad but playing video games such as call of duty is also bad for the environment as well. Yet none of us say we want to stop playing video games. Are video games necessary? No they aren't. They hurt the environment yet we don't stop using them. Then we also have perfume, makeup and cosmetics which are way way you worse for the environment than AI.
