

r/Ai_art_is_not_art

this person is without water because of Ai

Posted by u/arsnicotine • 0 points • 222 comments

pls watch and share so we can maybe stop this

My dumb@\$ city is trying to build a data center, city council was flooded with protesters, they are trying to hide who is building it, they are trying to rezone residential for industry.

u/mircea236 • 1 points • 2025-10-21 06:57 UTC

Iowa, iirc, is a bread basket of the USA. Fertile soils.

And instead of using the very necessary water for agriculture or, yk, anything useful to actual humans, they use it for AI data centers and citizens are left without running water.

Welcome to the dystopia of all time, where people have less rights than generative AI.

This lady is over exaggerating. Show proof of no water
