Elon Musk's Secret Power Plant — The Hidden AI Pollution Scandal in Memphis

Posted by u/EchoOfOppenheimer • • 0 points • 1 comments

What if the world's richest man quietly built an unpermitted power plant to fuel his AI empire? 🇺🇸

In Memphis, locals discovered xAI's massive data center — burning methane like a small city, hidden behind the promise of "innovation." No permits. No pollution controls. No accountability.

Not just Elon, OP. You can't ignore the enormous amount of pollution and carbon released by all the data centers that have been built and are being built by all the others. Google, Amazon, Apple, Microsoft....it's an inherent flaw in the system, not limited to one person you happen to dislike.
