

Students' Use of Artificial Intelligence in University Work and Awareness of Environmental Impact

Posted by u/No-Zucchini2036 • 0 points • 3 comments

Hey guys, I'm currently a final-year student at the Uni of Manchester, and I'm conducting research for my project on Students' Use of Artificial Intelligence in University Work and Awareness of Environmental Impact. I'd be incredibly grateful answer these five quick questions, and your responses will really help me understand how students are using AI tools and how aware we all are of their wider effects.

The survey is completely anonymous, your participation is voluntary, and it should only take around a minute to complete.

I'll do yours if you do mine :)

criteria right now: 30 - 50 years old women (need more of this statistic)

original criteria: 18 - 50 years old (still applicable)

let me know when you've done it and I'll quickly do yours!
