

\$840m desal expansion tipped as Melbourne faces AI water drain

Posted by u/deco19 • 0 points • 6 comments

One is being built near me, anticipating higher electricity costs and now water restrictions. All for some bots to run riot, people making shitty emails and documentation and maybe generating a bit of good and shit code here and there for my work. All the while it occupies a huge plot of land hiring fuck all people.

This shit needs to collapse now.
