

Question: if it upsets you that AI uses so much water, why do you still buy Astroglide?

Sales of personal lubricant brought in 1.2 billion (yes, **billion**) dollars of revenue in 2024.

If on average a lube bottle goes for \$20, then that's about 60,000,000 bottles of lube sold a **year**.

If even **half of that** of water based lube, that's 30,000,000 bottles of lube. And since water based lube is on average 85% water, that's (85% of 30 million =) that's 25,500,000 lube sized bottles of water sold a year!

If the average lube bottle is 8 fl oz, then that's 204,000,000 oz of water a **year** being sold. That's 1,601,562.5 **gallons** of water a year wasted on you doing the five finger dick punch.

But you don't go complaining about **that**. I wonder why. Could it be because you are **hypocrites**?

Gooning hypocrites?

The concerns about water use are that it is using water in areas that don't have a lot of water available, like desert like areas.

My favorite part is how hours viewed = hours wasted lol.

Sad not even a single hour was worth it. Well, maybe 2026 will be the year where real value gets extracted from Femboy Catboy Content
