

Environmental impact of AI: what should we measure, and what actually works?

Posted by u/Asleep-Term-4379 • • 0 points • 3 comments

Hey all,

I'm trying to map how people think about the environmental footprint of everyday AI use, beyond vague claims. What matters most to you when you think "AI sustainability"? Would love your help on this survey (takes ~5-7 mins), and I need 100 participants! Thanksss :)
