[R] Academic survey: How practitioners evaluate the environmental impact of LLM usage

Posted by u/Brilliant_Grab2769 • • 0 points • 0 comments

Hi everyone,

I'm conducting a short **5–7 minute survey** as part of my Master's thesis on how the **environmental impact of Large Language Models used in software engineering** is evaluated in practice.

I'm particularly interested in responses from:

- ML engineers
- software engineers
- researchers
- practitioners using tools like ChatGPT, Copilot or Code Llama

👉 Survey link:

<https://forms.gle/pjUXd9Mn1rGXXXQ58>

The survey is **anonymous** and **purely academic**.

Thanks a lot for your help!
